Dear Sir/Madam:

I am writing to support Dr. Leslie Feinberg's application for a patent for a method of treatment known as NeuroModulation Technique (NMT). I am a citizen of the United States, and my residence is at 900 Lexington Street, #1-9, Waltham, MA 02452.

I am a licensed acupuncturist in the Commonwealth of Massachusetts (Lic. #589), and hold the professional designation of Lic. Ac. I am a 1997 graduate of the New England School of Acupuncture, Watertown, Massachusetts, and hold the degree of M.Ac. from that institution. I am a diplomate of the National Certification Commission for Acupuncture and Oriental Medicine (NCCAOM), and hold a current certificate (#8001).

I am in full-time clinical practice in my own clinic, at the following location:

The Callum Pain and Allergy Clinic
332 Washington Street, Suite 280
Wellesley Hills, MA 02481

I have been providing medical care and treatment to patients since 1997. I have used NMT as taught in the Comprehensive Level and Advanced Level Seminars since September, 2002, and use NMT daily in my practice to treat a wide variety of patients (adults and children), for complaints including, but not excluding others:

- allergies and sensitivities of all types;
- musculoskeletal and myofascial pain and associated complaints of restricted range of motion;
- active and chronic infections;
- symptoms related to autoimmune dysfunction;
- symptoms related to toxicity;
- neurological disorders;
- emotional distress

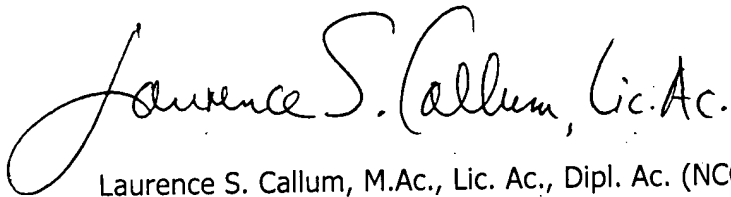

App# 10/662,960
Statement # 31

NMT is taught in the seminars noted above by the NMT seminar manual, and works as disclosed in the manual.

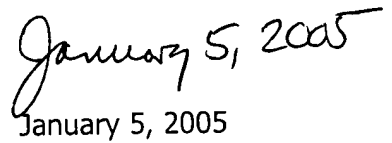

NMT is highly useful in treating patients, and in fact, and has been the most widely used treatment modality utilized in my clinic for over one year.

Should you require any further information, please do not hesitate to contact me at my clinic at the address or telephone listed above.

Respectfully yours,
